

Juliet[®]

the feminine laser

The fast, gentle, hormone-free and minimally invasive treatment for women's intimate symptoms. Give your patients a new lease of life!

Juliet[®] is a minimally-invasive treatment to stimulate the production of new collagen and elastin as well as to enhance vascularisation of the vaginal skin. This attenuates symptoms such as itching, irritation and pain during sexual intercourse as well as involuntary loss of urine – improvements that can be observed right after the first treatment.

- + Unique biphasic treatment (ablative & thermal)
- + Fast, gentle and minimally invasive
- + Treatment takes less than 15 minutes
- + No anaesthesia necessary
- + No time-off
- + Symptom relief already after the first treatment
